SUMMARY

Full-stack developer with hands-on experience building scalable web applications using React, Node.js, Express, and MongoDB. Developed end-to-end projects with secure authentication, RESTful APIs, and responsive UI. Built a Smart Job Tracker with AI-powered resume analysis, including PDF upload and text extraction, delivering actionable insights like match score and skill gaps. Strong focus on clean code, problem-solving, and real-world application development.

TECHNICAL SKILLS

Languages: JavaScript, Python

Frontend: HTML, CSS, JavaScript, React.js, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB

Tools & Technologies: Git, GitHub, Postman, VS Code

APIs & Integration: Axios, Recharts, REST APIs, OpenAI API, File Upload (Multer), PDF Parsing

Concepts: JWT Authentication, MVC Architecture, CRUD Operations

PROJECTS

Smart Job Tracker | MERN

- Built a full-stack job tracking application using React, Node.js, Express, and MongoDB, enabling users to manage applications with status tracking and JWT-based authentication.
- Designed and implemented RESTful APIs for job management, ensuring secure and efficient data handling across frontend and backend.
- Integrated an AI-powered resume analysis feature with PDF upload and text extraction, providing match scores, missing skills, and actionable suggestions.

Smart Finance Platform | MERN

- Developed a full-stack MERN expense management application with secure JWT authentication, enabling users to manage income and expenses through complete CRUD operations.
- Built an interactive financial dashboard featuring analytics cards, category-wise pie charts, and monthly spending trends using MongoDB Aggregation Pipeline and Recharts.
- Integrated an AI Financial Advisor to analyze user spending patterns and generate personalized financial insights, budget recommendations, and savings suggestions using the OpenAI API.
- Designed a responsive and modern user interface with React, Tailwind CSS, and Framer Motion, while implementing RESTful APIs with Node.js, Express.js, and MongoDB.

Quiz App | React, Tailwind CSS, JavaScript

- Built an interactive quiz application with timer-based logic (30 seconds per question) to enhance user engagement.
- Designed modular components (Question, Timer, Result, Progress Bar) for scalability and maintainability.
- Implemented dynamic feedback system with score tracking, answer review, and performance analytics.
- Enhanced UI/UX with responsive design and smooth animations across devices.

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology - SGPA: 8.47

2025

Bhadrak Institute of Engineering & Technology (BIET)

Odisha, India

Diploma in Computer Science & Engineering - 78.2%

2021

Bhadrak Engineering School & Technology (BEST)
